GEMINA

Contract Concepts™

4 Seat Beam

Designed by Scagnellato/Ferrarese. Made in Italy

FEATURES

GEMINA is the crossover of the highest form; the ideal object in both the office and contract environments.

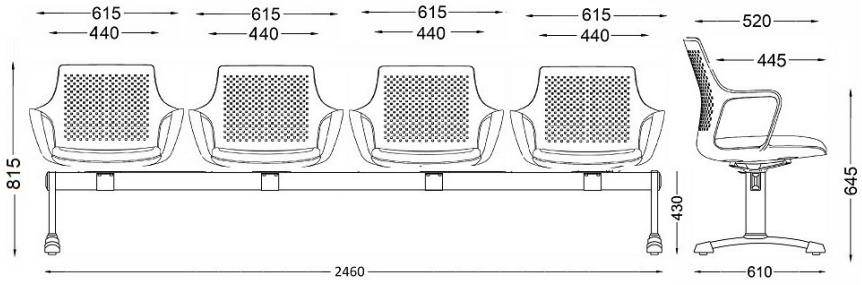

Two different worlds which no longer have precise boundaries. Worlds in which GEMINA is equally at ease.

Now more than ever, designing a space means imagining the relationships between individuals because they are increasingly fluid. In this new way of interacting, GEMINA is the protagonist.

- Plastic shell with seat upholstery panel
- 3, 4 or 5 seat beam frame
